Architect:	Corgan Associates, Inc.
Scope/Services:	Metal Framing, Drywall, Acoustical Ceilings, Metal Ceilings

Awards:	CISCA 2013 Construction Excellence AON Build America Award USGBC LEED Silver
---------	--

This multi-year project required a multi-phase construction schedule to accommodate occupied space and ensure no disruptions to the existing Dallas Love Field Airport operations. The aircraft contrail custom design required non-traditional construction techniques in order to achieve the state-of-the art airport aesthetics and functionality.
