

Project Profile

TEXAS HEALTH HUGULEY HOSPITAL NEW PATIENT TOWER

Location:	Burleson, Texas
General Contractor:	The Beck Group
Architect:	Beck Architecture
Scope/Services:	Framing, Drywall & Acoustical Ceilings

Awards: **TEXO Distinguished Building**

This new patient tower was added to the current Huguley Hospital as a requirement to accommodate the growing South Fort Worth community. The new building consists of 6 stories, approximately 234,300 square feet, and includes large patient rooms, surgical floors, radiology center, Women's Services Department, private Labor/Delivery suites and a Chapel, as well as common amenities such as a gift shop, landscaped courtyard and lobby.

The exterior wall panels were prefabricated and raised into place to progress a stringent construction schedule.
