

## Project Profile TRINITY FOREST GOLF CLUBHOUSE

**Location:** Dallas, Texas

**General Contractor:** The Beck Group

**Architect:** Mark P. Finlay Architects

**Scope/Services:** Framing, Drywall & Acoustical Ceilings, Specialty Ceilings, Thermory Exterior Wood Cladding

**Awards:** LEED Certified  
City of Dallas Green Building Certified

Built on a closed landfill, Trinity Forest Golf Club's new clubhouse is a 35,000 square-foot building which features a golf shop, men's and women's locker rooms with bars, main bar and grill with private dining room, a 5,000 square foot event room, two lounges and expansive balcony upstairs overlooking the Championship Golf Course. The exterior of the building features Thermory Wood Cladding with PaCS Strips, eliminating the need to install fasteners through the wood.
