

Project Profile
Eating Recovery Center

Location: Plano, TX
General Contractor: HC Beck, Ltd.
Architect: Boulder Associates Architects
Scope/Services: Metal Framing, Drywall, Acoustical Ceilings

Founded in 2014 and located in the vibrant center of Dallas, Texas, ERC Legacy is one of the most comprehensive, medically-supervised eating disorder treatment programs in the country.

Serving adults, adolescents, and children at ALL levels of care, including Inpatient, Residential, Partial Hospitalization and Intensive Outpatient, treatment programs are developed and overseen by a compassionate team of highly experienced and renowned eating disorder experts.

At over 100,000-square-feet and with a total of 72 beds in Inpatient and Residential treatment unit, offering comprehensive support that includes medical and psychiatric supervision with 24/7 nursing support, an emphasis on medical and psychiatric stabilization and interruption of maladaptive behaviors, and treatment for co-occurring illnesses to light the path for patients towards lasting behavioral change.
